MASSAGE

Swedish Massage - Swedish massage is the most commonly offered and best known type of massage. A firm but gentle pressure to improve the circulation, ease muscle aches and tension, improve flexibility and create relaxation.

30 minute-\$50, 60 minute-\$80

90 minute-\$120,, 120 minute-\$150

Deep Tissue Massage Deep tissue massage is a type of massage aimed at the deeper tissue structures of the muscle and fascia, also called connective tissue. It is also a more focused type of massage, as the therapist works to release chronic muscle tension or knots (also known as “adhesions.”) 30 minute - \$60, 60 minute - \$90

Ooh Ahh Massage Pregnancy can be a happy time, but it also comes with swollen feet, achy joints, and worries. It can relieve stress, helping to ensure that your baby remains calm as well. Prenatal massage also improves circulation, minimizes edema (swelling), and helps the mother sleep better.

30 minute - \$60, 60 minute - \$90

Shiatsu Massage Shiatsu is an old, traditional Japanese healing method. Shiatsu means, “finger pressure.” It’s a form of “touch communication,” and is a safe and effective preventive medicine. It helps to balance a person’s energy flow, and strengthen the vital organs. 30

Minute - \$55, 60 Minute - \$85

Neuromuscular Neuromuscular therapy is also called trigger point myotherapy. When a muscle (or trigger point) spasms in the body, blood flow to that area is severely decreased, sometimes ceasing altogether. When the blood flow is diminished, oxygen necessary for the muscle to work properly is also decreased, causing a buildup of lactic acid. 30 minute - \$60, 60 minute - \$90

Hot Stone Massage Heated smooth, flat stones are placed on key points on the body. The massage therapist may also hold the stones and use them to massage certain areas of the body. The heat warms and relaxes the muscles, which allows the therapist to apply deeper pressure, if desired. The warmth of the hot stones improves circulation and calms the nervous system.

75 minute - \$145
